

Invitation to ASI Briefing

ASI Briefing

The Aluminium Stewardship Initiative (ASI) is one of a small but growing group of voluntary standards and certification programs addressed at mineral and metal supply chains. With the increasing EU legislative focus on extractives, human rights risks, and supply chain due diligence, such programs can play an important role in supporting and demonstrating industry good practice.

Join Dr Fiona Solomon, ASI Executive Director, to learn and discuss how ASI is working to:

- define globally applicable voluntary standards for sustainability performance and material chain-of-custody for the aluminium value chain
- promote measurable and continual improvements in the key environmental, social and governance dimensions of aluminium production, use and recycling
- develop a credible assurance and certification system that both mitigates the risks of non-conformity with ASI standards and minimises barriers to broad scale implementation.

Details

Date: Monday 13 July 2015, 3-4.30pm

Kindly hosted by: Intel Corporation S.A., 95 rue Froissart, 1040 Brussels, Belgium

RSVP: by Friday July 4, 2015 to Michelle Freesz, ASI Administration Manager

michelle@aluminium-stewardship.org

Note: Places are limited to 30 people.

About the Aluminium Stewardship Initiative (ASI)

The Aluminium Stewardship Initiative (ASI) was launched in 2012, spearheaded by 14 industry players across production, transformation and downstream sectors, to foster greater sustainability and transparency throughout the aluminium value chain.

Current participating companies are: Aleris, AMAG/Constantia Flexibles, AMCOR Flexibles, Audi, Ball Corporation, BMW Group, Coca-Cola Enterprises, Constellium, Jaguar Land Rover, Hydro, Nestlé Nespresso SA, Novelis, Rexam, Rio Tinto Alcan and Tetra Pak.
