Introduction and context

From September 2019, ASI is taking the initiative to share a summary of Board meetings and teleconferences in the interests of transparency.

The following principles are applied in preparing these summaries:

- Statements or perspectives are not attributed to individuals.
- The following matters are not included in the summary: personnel matters, financial approvals, small items, or sensitive, premature or evolving discussions.
- Board decisions are shared, but not the deliberations or decision-making processes that lead to them.
- Publishing the Board’s decisions does not invite or open up debate about these decisions.
- The Board approves the summary before publication on the ASI website and via the monthly Members Update.
